

Avoid up to a **9% penalty**

Automate your EHR data

Track performance against benchmarks

Close gaps in patient care

Manage your patient population

Satisfy PQRS, VBM & MU

The American Joint Replacement Registry (AJRR), in collaboration with the American Orthopaedic Association's (AOA) Own the Bone program, and the American Association of Hip and Knee Surgeons (AAHKS) presents the AJRR Orthopaedic Quality Resource Center, approved by the Centers for Medicare & Medicaid Services (CMS) as a Qualified Clinical Data Registry (QCDR). Started in 2014, the QCDR method provides a new standard to complete Physician Quality Reporting System (PQRS) requirements based on satisfactory participation. A QCDR is a CMS-approved entity that collects medical and/or clinical data for the purpose of patient and disease tracking to foster improvement in the quality of care furnished to patients. This registry is approved by CMS as a Qualified Clinical Data Registry (QCDR) for Eligible Professionals and GPRO Practices.

MEASURES THAT MATTER

*This registry includes **38** approved PQRS and custom measures.*

MU

PQRS

VBM

Up to 9% of your 2018 Medicare payments are at risk for non-participation in the Meaningful Use, PQRS, & VBM programs.

AVOID PENALTIES UNDER THE PQRS, VBM, AND MU PROGRAMS WITH EASY-TO-USE REGISTRY REPORTING

These programs collectively place up to 9% of eligible allowed Medicare Part B FFS charges at risk.

This registry can assist providers in avoiding penalties under quality reporting programs such as the Physician Quality Reporting System (PQRS), and satisfaction of the Meaningful Use Specialized Registry Public Health Objective.

Start reporting today to avoid future payment adjustments!

ELIMINATE DATA ENTRY EFFORTS WITH AUTOMATED EHR DATA SUBMISSION

- Secure & easy to use
- Populate the registry with your existing data

Participating EHRs:

- Athenahealth
- Allscripts
- Aprima
- NextGen
- Greenway
- Quest Diagnostics / Care360®
- STI / ChartMaker®

Don't see your EHR? Contact us.

A single, secure data feed from multiple EHRs

CONTINUOUS PERFORMANCE MANAGEMENT

- Track performance scores against national benchmarks & peer data
- Provider dashboard with performance scores & trend lines
- Identify gaps in patient care
- Identify opportunities to improve clinical care

IMPROVEMENT INTERVENTIONS TO CLOSE GAPS IN PATIENT CARE

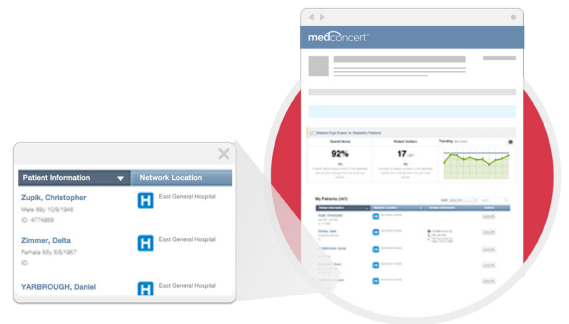

The registry identifies possible interventions for improvement based on clinical quality gaps found through calculating your selected quality measures.

Once a measure gap is identified, this quality improvement registry automatically identifies improvement interventions. The green “How Do I Improve?” button associated with each measure links to relevant improvement tools including clinical guidelines and continuing education materials.

MANAGE YOUR PATIENT POPULATION

- Manage the health of your patient population by identifying individual patients based upon measure results
- Identify opportunities to improve care by reviewing performance across your patient population
- Use patient population information to address clinical quality gaps in a timely manner

SATISFY PQRS, VBM, & MU

- Satisfy PQRS & VBM requirements
- Fulfill the MU Specialized Registry Public Health Objective
- Reporting available for Eligible Professionals and GPRO Practices

\$ HOW MUCH DOES IT COST TO PARTICIPATE?

Registration and payment is required for each PQRS submission period. The annual cost per provider is **\$439**. This subscription fee includes annual use of the data for quality improvement purposes and PQRS submission to CMS.

Please contact us for information regarding pricing for PQRS GPRO and / or Meaningful Use.
